RE: Case File #2006-00028

Dear Beth O'Donnell:

I am writing in regards to the sewer rate increase proposed by the Farmdale Development Corporation. I have lived in Farmdale since 1997 and do not remember ever having a sewer rate increase. I can understand a small increase in the rates since they have not been raised in a while; however, the rates proposed by the Farmdale Development Corporation are simply excessive.

I spoke with some friends in Lexington and they pay a \$10 monthly sewer fee. I believe the Frankfort Plant Board only charges a \$20 monthly fee. No one I know pays anything close to \$63.51 (35.59+27.92) monthly for sewer.

The price of gasoline and electricity are already stretching the limits of many people's budgets. Salaries have not gone up to compensate for these increases. Quite frankly, I do not need an additional \$43 monthly bill!

I hope you will take my concerns into consideration when determining whether the rate increase proposed by the Farmdale Development Corporation should be approved.

Sincerely,

  
Linda Sagraves
